Road Work Ahead
Newsletter
Vol. I
April 3, 2020

Intro

First, we hope you and your families are staying healthy and safe during this challenging time. We also hope you received our letter in February regarding the projects that will be occurring on Ridge Road this spring/summer. The purpose of this newsletter is to provide periodic updates on the construction progress, schedule, and impacts to residents.

Ridge Road Improvements

Work on lower Ridge Road (College Drive to Meadow Court) is progressing nicely and is expected to be completed soon.

Work on the Ridge Road hill (Meadow Court to 719 Ridge Road) is expected to begin in the middle of April. As noted in our February letter, the street will be constructed one side (half) at a time. Please remember that during construction, traffic will be one-way up the hill. Traffic down the hill will not be allowed. The project should not impact garbage collection but please see the box at right for information on mail delivery.

During the more extensive parts of the project, the full street will need to be closed. Notice of these closures will be provided to residents and temporary transportation will be provided as necessary to maintain access to homes.

Locust Road Improvements

The Locust Road project is currently out for bids with the bid letting scheduled for Tuesday, April 21st. Weather permitting, it is expected that construction will begin in June 2020.

Important Information Regarding Mail Delivery & Collection on Ridge Road

During road construction (April through June, approx.), mailboxes for the residents on the Ridge Road hill will need to be removed. The contractor will be placing temporary mailboxes on Meadow Court for the following Ridge Road addresses:

700	712
702	714
704	715
706	716
708	718
710	719
711	

Your mailbox will be labeled with your house number. For the safety of your carrier, if you receive a package that is too large for your mailbox, you will be given a notice to pick it up at the Post Office. Please contact the Post Office with any questions at 563-382-2903.
