Locust Road Improvements

At long last! We are very excited to announce that Locust Road was opened for traffic on Wednesday, November 25th. A commemorative ribbon cutting was held on November 25th to celebrate the opening of the road.

City officials, contractors, project partners, and community members commemorated the opening of Locust Road with a ribbon cutting.

While Locust Road will now be open for normal traffic, construction activity will continue on a few items outside the roadway. These include removal of existing utility poles, installation of new streetlights, burying of utility lines, constructing new rock ditch checks, and erosion control.

Important Info: Mail Delivery and Garbage Collection

Normal operation of mail delivery and garbage collection for residents along Locust Road will resume after Sunday, November 29th.

A Special Thanks

We would again like to thank the entire community for their patience during the Locust Road project. In addition, we would like to acknowledge the hard work of the numerous contractors, engineers, surveyors, and other contributors who helped make the Locust Road project a success. We would like to extend a special thanks to:

- McClure Engineering
- Skyline Construction, Inc.
- Wicks Construction, Inc.
- Bruening Rock Products, Inc.
- Croell Ready Mix
- Tara Erosion Control LLC
- Iowa Plains Signing, Inc.
- W.K. Construction Company
- Lovewell Fencing, Inc.

Quarry Street Improvements

The contractor will soon be finishing work on the Quarry Street improvements project. Remaining work includes a few minor street repairs, sidewalk installation, and backfilling. The project is expected to be substantially complete within the next week or two.
