# **Public Health Proclamation Tightens Restrictions for Winneshiek County Residents**

Governor Reynolds issued a proclamation April 16, 2020, tightening restrictions for Winneshiek County residents to help slow the spread of COVID-19 in the county and the state.

“Our region of the state has reached the threshold for which extra measures are needed,” said Winneshiek County Public Health Director Krista Vanden Brink. “This threshold includes regional measures of the rate of COVID-19 illness and hospitalization, long-term care outbreaks and the percentage of the population age 65 and older.”

In addition to Winneshiek County, the affected region includes Allamakee, Benton, Black Hawk, Bremer, Buchanan, Clayton, Delaware, Dubuque, Fayette, Grundy, Howard, Jones, and Linn counties.

The proclamation is in effect until April 30:

- Weddings, funerals, and other spiritual and religious gatherings may be held **ONLY** if there are 10 or fewer people **AND** all people stay at least 6 feet away from each other outside of their same household.
- All other social, community, recreational, leisure and sporting gatherings of any size with people outside of the same household are prohibited.
- Any person leaving their home must stay at least 6 feet away from anyone who does not live in their household whenever possible.
- Employers must evaluate if employees can work from home, and take steps to enable work from home for those who can.

- All businesses who remain open must take reasonable measures to protect employees and the public, including employee screening, social distancing and increased cleaning.

These restrictions apply to anyone in the affected counties, whether they live there, work there (and live in another country), or are visiting.
